

This is a step by step guide on how to use the Simple Query Builder tool inside the www.maps.macog.com website to run queries on the data attributes in each layer to do data analysis within St Joseph County.

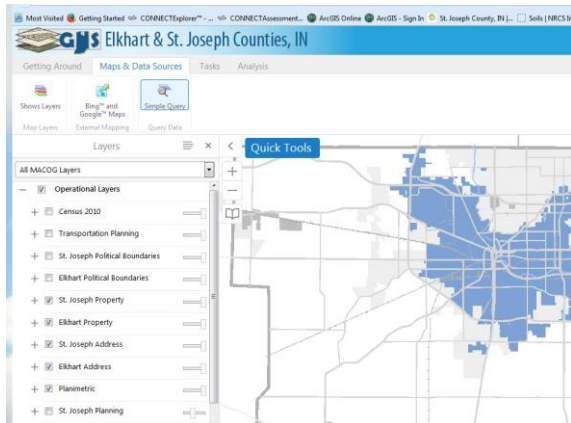

1.

Navigate to www.maps.macog.com then on the home

page choose the Main GIS Map tab.

2.

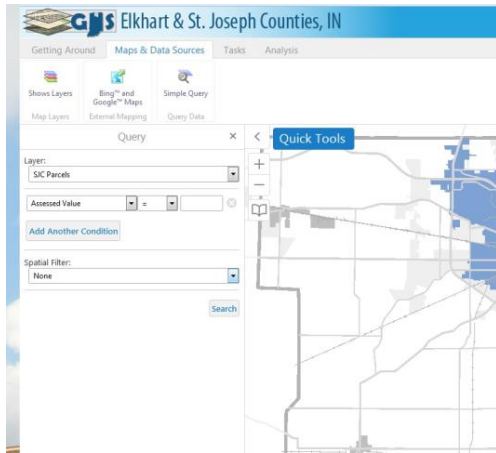

Choose the Maps & Data Sources Tab located in the

upper left of the website. Then choose the Simple Query tool.

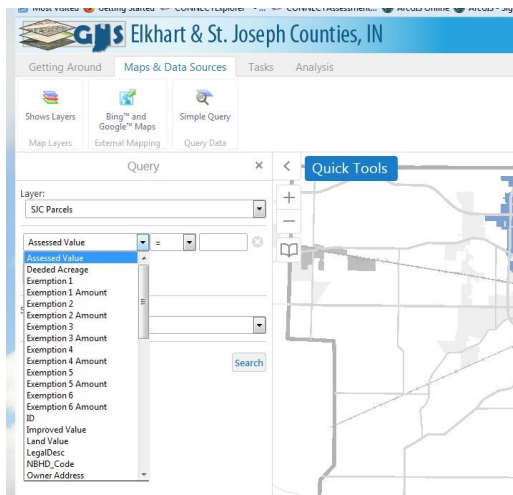

3.

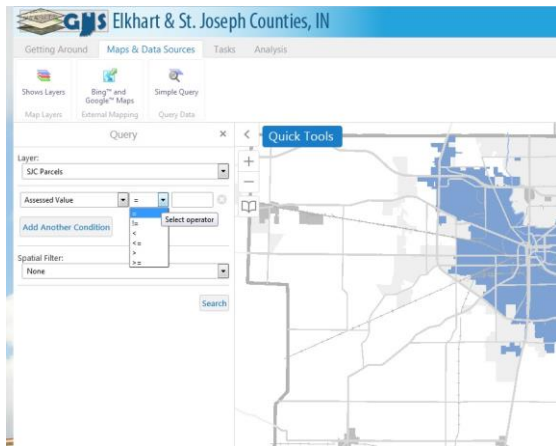

Choose from the Layer dropdown menu the layer you would like to run a query from.

4.

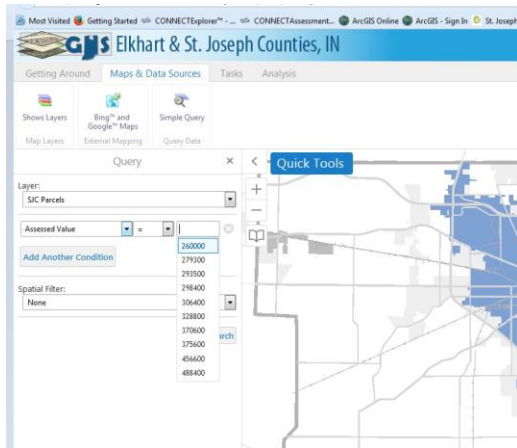

Next choose which layer field you want to do your query.

5.

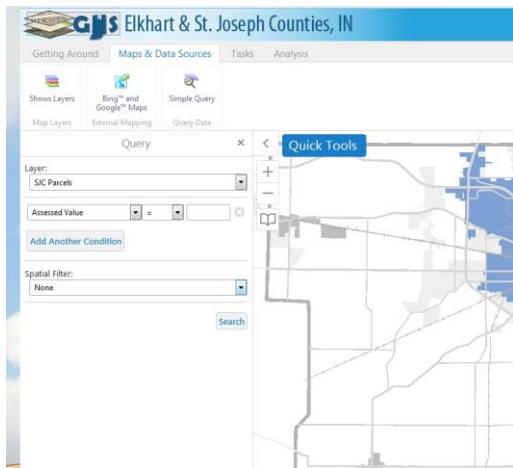

Next choose the select operator

6.

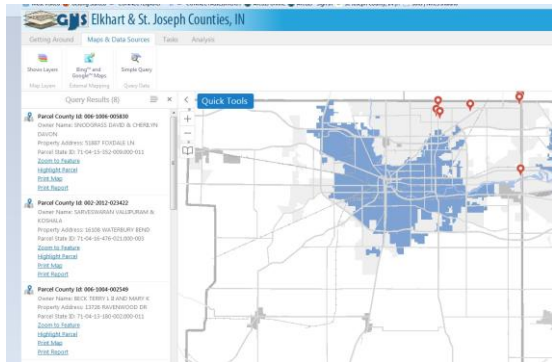

Next choose the value, or input the value.

7.

You can choose Add Another Condition, and that would be repeating Steps 3-6 again. Once you have completed the query being one condition or multiple conditions, select the Search button to run your query.

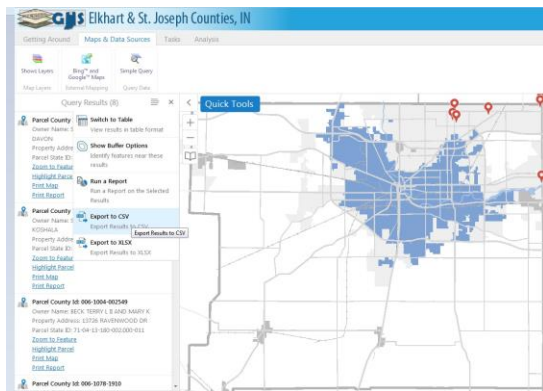

8.

left of the map

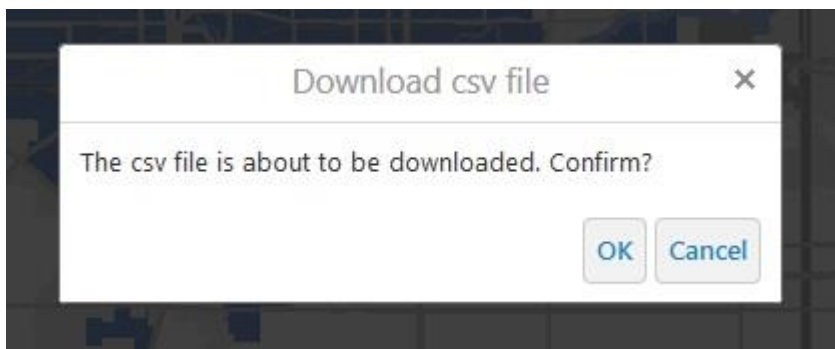

After you ran the query, your results will display on the window.

9.

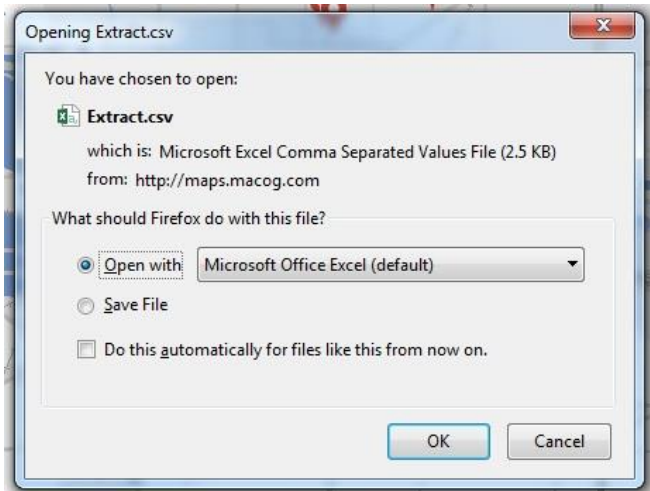

Choose the Panel Actions Icon  that is located in the upper left of the results list. Then choose the Export to CSV to export the data results to an excel file.

10.

Choose the ok icon to download the results.

11.

If prompted, choose Open with Microsoft Office

Excel.

12.
